IS GOD REASONABLE?

By Commissioner CHARLES JEFFRIES,

HERE are numbers of people who refuse to serve God or recognize. His claims on the ground that those claims are arbitrary and unrearonable. This attitude seems to be like that of Pharaoin, who, when Moses add, 'Thus saith the Lord,' anewered, 'Who is the Lord that I should obey His voice?' They question His authority, resent His claims, and act as if they considered it unreasonable of God to expect them to learken to Him, or to obey Him in any way whatever. HERE are numbers of people who

Cannot be Unreasonable

The only service He will accept is a willing service given because—recognizing His goodness, His mercy, His providential care, and His redeeming love—we feel it to be only reasonable that we should render Him the best we have in return for all He has done for us.

'What doth the Lord require of thee but to do justly, love mercy, and walk burnly before thy God?' Te there

but to do justly, love mercy, and walk humbly before thy God? Is there anything unreasonable in that? Even that He does not expect us to

do in our own strength. Our fallen and weak nature He promises to re-new and strengthen, and if we will submit ourselves to Him He will write submit ourselves to Him He will write His laws upon our hearts and do them. If we plead weakness, He promises that His strength shall be made perfect in our weakness. He we sin through ignorance, He closes His eyes to our ignorance and does not hold us responsible. Sins of ignorance are covered by the

choice The only compulsion He uses

is the compulsion of love. He pleads, persuades, and with infinite condescension says, 'Come, let us reason together,' with patient forbearance pressing upon us His claims to our love and our service.

But on what are His claims based?

The right of creation. He made us — in His own image made He us — that we should be wise in mind, holy in heart, righteous in action. He made us for His own nurroses, and there

in heart, righteous in action. He made us for His own purposes, and therefore 'it is the whole duty of man to ear God and keep His commandments.' He has patent right over us, and it is reasonable that He, the Creator, should expect to get all the profit and pleasure possible out of His own-creation.

reation.

A Stupendous Price

The right of support. We are maintained and upheld out of His bounty. He is the Author and Giver of all our temporal blessings. It is His thought-fulness that makes it possible for our table to be spread, our bodies to be clothed, and our other needs to be supplied. It is reasonable to expect that common gratitude should constrain us to say, 'What shall I render unto the Lord for all His benefits towards me?

The right of redemption. It is because of this fact that God makes His greatest claim upon us. When we had puwned ourselves to the Devil, sold ourselves to evil, He found a ransom. He bought us back from the slavery of sin at a great price. He made it possible for us to escape from the consequences of our rebellion.

The price paid for our redemption.

sequences of our rebellion.

The price paid for our redemption was stupendous, but He paid it—paid it all, paid it to the full, 'God so leved the world that He gave His only begotten Son.' Can we contemplate this great gift, crowning all the others, and charge God with being unreasonable? And can we longer resist His claims? No wonder the great Apostle, in urging people to surrender their lives to God, should do so on the grounds that it was their 'reasonable service.'

And it is not only reasonable. It is

And it is not only reasonable. It is pleasurable, and it has the promise of great rewards and compensations. The toil is for Time, the reward is for Eternity. Yield then your hearts to Him, acknowledge His reasonable and just claim, and say now, as you read

Is the onlooking crowds. When

be confesses by the act 'I acknowledge myself a sinner,' and his old
companions understand this very well.

Also the penitent-form is a place of
surrender. A stranger looking on at
an Army Meeting may say, 'Oh, just
excitement; those people were worked
up to a hasty action, and will feel
differently to-morrow.' But what of
the previous desperate struggle that
has gone on? Men and women know
well that to go to the penitent-form
means the surrender of their wills to
God. There is no object in acting a
farce. If they go to that place of
confession, they must be willing to
forsake their evil ways. The spirit of
God has spoken to them, and the Devil
has helped them to fight against Him.
It is well for them if the friendly influence of some joyous or solemn state
of feeling carries them over the final
agony of surrender. Kneeling at that
form they may have to decide to pluck
out the right eye or cut off the right
hand. Many cannot face such conflicts
in cold blood as bravely as to the
sound of friendly voice and music.
Why should they be denied every possible help?

Then the penitent-form is a place

Why should they be denied every possible help?

Then the penitent-form is a place of wise direction. In this respect the long experience of The Army has produced something very near perfection. Each Corps has its woman Penitent-Form Sergeant to deal with the women seckers, and its man Sergeant to deal with the women seckers, and its man Sergeant to deal with the men. Yet there is no rule so hard and fast as to prevent the leader of the Meeting from speaking to both men and women, so that each penitent can speak confidentially to the Sergeant appointed, and in case of need have the final help of an experienced Officer.

Both Past and Future

If it be asked, 'How can instruction

Both Past and Future

If it be asked, 'How can instruction
be given in such short time, and with
the actual sound of a Prayer Meeting
going on ? the answer is that the instruction given to the Converts concerns both the mast and the future.
The penitent-form is the result of the
one, and the introduction of the other.
Of course, there are executions.

The penitent-form is the result of the one, and the introduction of the other. Of course, there are exceptions. The writer remembers being sent to help a girl who had come to the penitent-form at the opening of the old Greeian Corps, and who said, 'But who is Jesus Christ? I have heard some swear words like those, but this is all I know about Him.' Yet she did not rise from the penitent-form without, at any rate, some glimmering of the great fact that she had spoken to

a Being who had heard her prayer.
It is not for us to give assurance of pardon and eleansing. We clear the ground by helping to sweep away the obstacles. For one who is not only truly sorry for the past, but resolved to begin a new future at any cost, and has already confessed this before men, what remains is but an act of faith.

The Army uses the penitent-form because it means a clean break with the past. A man may place bimself under instruction, or resort to the help of a priest, or any other minister in private, but whatever advantages he may gain, he does not thereby make, in the knowledge of all his acquaintances, the fresh start which he makes at the penitent-form.

Clean Sween of Past

Clean Sween of Past

Clean Sween of Past

In these days a widespread idea exists that by probling the sub-conscious records of the mind great existence may be given in cases of mental disease or deficiency. The Army has always known of these psychological possibilities, but the assistance given to our Converts has not the disadvantage attached to morbid introspection. It aims rather at making a clean sweep away of the evil past; all things are to become new, even the daily habits of dress, amusements, and occupations. The old Officer who always kept handy a pair of scissors with which to cut away the flowers and feathers from the women's hats at the penitent-form only symbolized the newness of the life that was being entered upon.

penitent-form only symbolized the newness of the life that was being entered upon.

The penitent-form helps to make Converts strong. It amphasizes the fact that a great event has happened. The Convert is made to feel that he is committed once and for all to a certain course of action to which even his jeering companions will expect him to stand firm.

A scene in a Cornish meeting many years ago filustrates this. The Hall was surrounded by a large gallery, crammed with a rough crowd who were inelined to behave as if in a theatre. As the After-meeting went on I suddenly saw a young couple in the front row. They were evidently sweethearts, and she was trying to bring him to the point of walking down the stairs and up through the large crowd to the penitent-form. He looked like a shy countrymen, and could not find the courage to go.

Finally she rose solemnly, twined her hand in his long hair, and commenced to drag him by main force. The act would have been ludicrous, but such was her tragic intensity that a dead silence fell, and as he slowly followed her after the absurd start

she had given him, no one laughed. But I think he heard of it next day and for long afterwards.

The self-consciousness and reserve of our Western races is hard to overcome, though all men are not so sensitive to appearances as some Highland soldiers in Natal, who solemaly petitioned the Officers to 'let us get saved without going to the penitent-form because people laugh so at our kilts.' Yet the man who has once so penily taken up his cross will, we are sure, carry it the more boldly to the end.

openly taken up his cross will, we are sure, carry it the more boldly to the end.

The penitent-form introduces the new beginner to new friends just when they are most needed. He does not leave the penitent-form feeling lonely, but rather that he has been prayed for and loved and sought by those who will stand by him. He is pressed to throw himself at once into the activities of The Army, and whether he can do this or not, his name and nddress are carefully registered, so that he may be visted and watched over.

Use it Carefully.

The responsibility of using the penitent-form to the best of advantage is tremendous. The Leader of the meeting can do much to make or man the work of the Penitent-form Sergeants. By allowing loud or unsuitable singing, for instance, he may drown what they are saying; on the other hand he may inspire and help them at every turn.

turn.
The Penitent-form Sergeants have much to do with the future of these souls in crisis. A hasty, unbelieving word, a cold look, a lack of attention, may throw back from the Cross a trembling sinner whom love and faith and courageous plain speaking may, by God's help, make into a glorious Soldier.

Continuance in Well-Doing

Continuance in Well-Doing
The plan of allowing Converts to
give testinony upon rising from the
penitent-form has in thousands of
cases ensured not only a good beginning but 'a patient continuance in
well-doing.'
Staff-Captain Kate Lee always tried
to make her penitent-form a beautiful
place with cerpet in front of it and
cheering words above it. Perhaps we
have been a little apt to forget that
there is no virtue in ugliness. There
is no reason why we should not beautify the spot where we expect Christ
and the sinner to meet.

But whether outward beauty is possible or not, let us faithfully do our
part, so that every penitent-form shall
become the birthplace of souls and
the starting-point of the Soldier's
life.

is Wednesday morning and we omewhere near Saigon. We are any the end of our journey and and all are looking forward to ling the port of Shanghai.

In Sinday last we spent a happy at Penang. We arrived there in early morning and a few of us ashore. Having no guide we leved aimlessly along and found elves in the Chinese quarters. Irally we were most interested.

ed us, one especially was that of a Chinese Temple. We were attracted first of all by the outside appearance. In front were two stone dragons holding burning incense. A Chinese woman came along and taking some from the font began to offer it to the image. Our hearts ached as we thought of the darkness of the poor souls. The Chief Official of the Temple came and asked us if we would like to go inside. What sights met our gaze! The first idol we saw was the god of good luck. Here we met a sight which stirred up the Missionary Spirit. In front of this god was a lady bowing continually and burning incense to the image which was so powerless to help her. By her side was a tiny boy imitating her every movement.

"What a need there is of The Salvation Army here. The next image we saw was that of Buddha, then came the tiger god. In an inner room we saw several small and one large idol and in front of the large one gifts of fruit. This was the god of smiles.

The room contained several small tables and a few chairs. On coming out of the Temple as may be imagined we were greatly surprised and highly delighted to hear a voice say "Hallelujah." It was Colonel Unsworth. We had a chat with the Colonel and discovered the hoat he was travelling on was anchored near to the Paul-le-Chat. After an encouraging time of conradeship and friendly intercourse spent with the Colonel we made our way back to the ship.

"We found that during our absence an Indian gentleman who had recognised The Salvation Army uniform had been on board the ship and made himself known as a Salvationist and had offered to take us round the Port in the afternoon. On me-55 time at the place arranged we za "...e had brought another gentleman with him, a doctor by profession, who also was a Salvationist. Never shall we forget the few hours spent in the company of these comrades, the memory of our fellowship will ever be sacred.

"We shall not soon forget the recep-

tion accorded us at the home of the doctor. As we approached the house a gentleman rose and saw and came to welcome us. He greeted us thus:—How good of the Lord to send you along. We discovered this gentleman was the father of the doctor who had accompanied us and that he also was a Salvationist. It appears the family had met The Army at Madras,

—Thirteen Seekers During

Week-end

Recent week-end Meetings were led by Staff-Captain and Mrs. Thompson and were very interesting and helpful. When the Corps Offi-cer and the Comrades arrived at the Hall for the open-air on Sunday morning they found a red hot pray-er Meeting in progress, led by the Staff-Captain. A man was kneeling at the mercy seat seeking deliverance from sin. After a while he claimed trom sin. After a while he claimed the victory and rising to his feet gave his testimony. "I have been in a terrible state of mind for three days and nights" he said " and have been on the verge of suicide. This morning as I was walking along the Citadel and waited two hours in the cold for the door to open so that I might find relief." He went on to relate something of his life story and the straits he had come to through gambling and drink. "But I am this day starting afresh" he said "and am going to live a new life." When the offering was taken up he put a five dollar bill on the plate. After the Meeting he had an interview with the Corps Officer and said he was anxious to keep in touch with His home was in Regina, he

The night Meeting was well attended and TWO others knelt at the mercy seat. On the Monday we had another good Meeting with TWO forward for Salvation and EIGHT for sanctification.

Major Byers Leads Week-end Meet-ings-First Local Officers are Commissioned

Major Byers, our Divisional Commander, recently visited this Corps for a week-end. Good crowds at-tended the Meetings. The Sunday morning knee drill was attended by nine Comrades. The Holiness Meetwas a heart-searching time and THREE seekers came to the mercy seat for sanctification and ONE of our recent converts knolt at the altar dedicated herself to God for Missionary Service. In the after-noon the Major gave a very inspiring illustrated talk to the Juniors on Paul's Missionary travels. At the night Meeting seven Local Officers were commissioned, these heing the first Local Officers appointed at Mount Forest since it opened in July

We also have had a visit from Adjutant Wright, who gave an illustrated lecture.

AND SONGS

SAVED THROUGH A SONG

A few years ago in an important city there hved two remittance men, who used to spend what allowance they got from time to time in trying to satisfy the insatiable craving for drink that possessed them; they had indeed grown dirty, drunken and disreputable, by reason of their indul-gence. Their inward power of resistance seemed to be completely gone, and there were few who had hope for their recovery.

A Salvationist who is now an Offi-

cer, meeting these men from time to time, would speak to them of Jesus, and of the hope there was, in Him, of being free from sin. On one occasion one of the men said to the Salvationist. "Why do you bother about us so much? We are too bad to be any different." The Salvationist replied:

"Because I believe that— Down in the human heart, crushed by the Tempter.

Feelings lie buried that Grace can restore.

Touched by a loving band, weakened by kindness, Chords that are broken will vibrate

once more."

The three separated and went their different ways; but the words had gone home as a beacon of hope; for, on receipt of the next remittance, these men instead of going to the pub, made their way to the clothier's and furnished themselves with a good suit of clothes. Next Sunday night they were to be found in the Army Meeting; and at the close, when an invitation was given to come to Christ, these men were the first to rise on their feet and kneel for forgiveness.

He had three sons, all players of ric nad three sons, all players of brass instruments. Could they help the Salvationists by their music? Well, they were ready to try, so he offered their aid, which was most thankfully accepted. and Portsmouth, and in September, 1880, the first Band came into being at Whitechapel.

But this was a period of experimenting, for all kinds of instruments were brought to ther-wind and string and percussion. Also bells and huntsmen's horns, and other sound making contrivances found a place, and the suffering public had much to bear as a result of such combinations!

SOUTHAMPTON (BERMUDA) BAND These Comrades render good service in the Corps and will doubtless soon be in full uniform. Lieutenant Tidman is the Officer

Out on the Town Hall steps the first, the second, and the third trial vas made, but without success, for unruly crowds drowned the sounds of the four instruments. Op-position and ridicule at length, however, gave way to attention, and the first Army Band's victory was won.

So marked was its success that the Founder had the Band up in London that he might estimate its value. tested it at outdoor and indoor Meetings both in London and the provinngs both in London and the provin-ces. The result was expressed in his Order on Bands, which appeared in the 'War Cry' of March 27, 1880;— 'Whereas during the great Welsh and Cornish Councils, and before that time at Plymouth, Nottingham,

and elsewhere, we have proved the great utility of musical instruments in attracting crowds to our Open-Air and indoor Meetings, we do here express our desire that as many Offiers and Soldiers generally, male and female as have the ability for so doing, shail learn to play some instru-ment. And as in many instances the obtaining of an instrument is a diffi-culty, we shall be glad if any friends who may have such instruments ly-ing idle will consecrate them to this service, and send them to Headquarters. This includes violins, bass viols, concertinas, cornets, or any brass instruments, drums, or any-thing else that will make a pleasant sound for the Lord. Headquarters, 272 Whitechapel Road, London, E.

An immediate response was made, and Bands were formed at Consett. Northwich, Carlisle, South Shields, Bristol, Spennymoor, Old Basford, Sheffield, Chatham, Mexborough,

There were some very important things that did not come within range of the Founder's vision when he decided to have Bands in the Army. Only certain instruments can he formed into a group for Band purposes, because of pitch and tone quality. For example, a tin whistle, a banjo, a concertina, a drum, a violin, and a drass bass instrument cannot make a Band in the true sense of the word.

Again uniformity of pitch among

Bands as well as the same arrange-ment of tunes are essential conditions if they are to be brought to-gether for united playing. It was therefore, found necessary to accept a model of instrumentation-that of the Brass Band won its way and has held its position victoriously for forty years; also to have a uniform pitch for all Army Bands, and to have only music authorized by the General as being fit to serve the aims and interests of the Army.

The need for Army music led in-evitably to the formation, in 1883, of a Musical Editorial Department. The necessity for sound work in the manufacture of instruments and the manufacture of instruments and the production of similarity of tone quality and pitch, and for satisfactory terms, led to the establishment in May, 1889, of an Army Instrument Factory.

To provide music for aiding the singing in our Meetings as well as for marching, the old Band Book contraining aid the significant of the satisfactory.

One of the most remarkable prison Meetings in the annals of the American work was held in the Jeffersonville Prison hy Commissioner and Mrs. Booth-Tucker recently when an immense new Chapel was form-ally dedicated to the service of God and The Salvation Army and eighty inmates of the Prison were enrolled

The prison work at Jeffersonville has been in existence for some years. During the time of its existence more than two hundred and fifty of the

prisoners have been enrolled as Salvation Army Soldiers and more than one hundred of these are now out-side the Institution. There is also a Brighter Day League with an enrolment of six hundred members.

The Training School is a very vital part of the Clapton Mother's Hospital. It is one of the many beneficent phases of work under the direction of Commissioner Adelaide Cox. Beginning with two pupils, Lieut.-Colonel Castle has now received thirty-five. It is a great joy to all concerned to feel that the Army is able to help send to the Mission Field nurses equipped to serve the women of those faraway lands.

A letter to hand recently tells of but who was saved by the knowledge and skill and resource of a Salvation Army Nurse-Officer.

For the District Nursing work done over a wide area, surrounding the Mother's Hospital, Clapton, no praise can be too high. In addition to the Hospital district, there are centres at Canning Town and Shore-ditch. From two to four district Staff Nurses generally are in residence at these centres, and pupils assist them in relays. All are very happy in this work, and some love it so much they tell the Matron they would like to have all their training in the district. During the last year forty-two pupils obtained the C. M. B. Certificate and twenty-one others received training as monthly Nurses.

Lubeck 2. Corps (Germany) suf-fered greatly during the war, so that when the Corps Officer took charge there were only six Soldiers. The authorities forbade the Officer to hold Open-air Meetings and he was arrested for disobeying the order. Seizing the opportunity of a personal interview with the Chief of Police our Comrade explained the Army's aims and methods with the result that permission for open-air services was granted. Largely as a result of the interest thus created an awaken-ing took place and at the end of eighteen months there were sixty Soldiers and twenty recruits on the Roll. The woman Color-Sergeant was formerly a drunkard with whom the authorities could do nothing, now she is a 'wonder unto many' and three of her children are also Salvationists, a daughter being a Corps Cadet. * * * *

Many-Sided Social Activities—Striking Cases of Social Uplifting

Prominent among the many sided Social activities of The Army in Australia are the Bayswater Probationary and Industrial Homes. These are situated among some of the most lovely scenery in Victoria—on the foot-hills of the Dandenong Range. There is an Industrial Home for youths with accommodation for fifty, and a Probationary Home with accommodation for sixty. It is a good sight to see the immates It is a good sight to see the immates of the Boys' Home—a hundred or so—marching behind their Army Band to the Corps on a Sunday morning. It is an enjoyable experience too, to see them at their drills and to mingle with them on their playing-fields.

Many striking cases of spiritual and social uplifting are recorded in connexion with the Army's Social Work in Australia. The son of a minister sank low through drink, One very wet afternoon he was spoken to by a Salvationist who discovered that he was penniless. He was directed to an Army Institution, was reformed and ultimately became converted. This trophy of God's saving power is now doing responsible work, and has earned the respect of all who know him.

Five years imprisonment in Australia proved to be the beginning of a life of crime in the case of one of the many whom The Army has helped to regenerate. He had spent thirty years in prison for various offences. When every other door of hope was closed to him, he sought the shelter of our Prison Gate Home, where he became a changed man. He now earns his living honestly.

At the sight of the Flag we were deeply moved and it only with great difficulty we could express our thanks to the Comrades who had ventured so far to cheer us. WAR CRY

EDITORIAL NOTES

Souls Are Getting Saved

Pages of the "War Cry" have not been wanting in evidences of the presence of God in the midst of His people up and down the Territory known as Canada East. From week to week there appears in these pages a series of representative reports saying something of the progress of the fighting in various parts of the In the greater number of these reports is included the intensely gratifying information that seekers knelt at the mercy seat. In some cases the numbers are large, in others relatively small, but readers of the "War Cry" know too wall the value The Salvation Army sets upon a single soul, to imagine for a mo-ment that only Meetings with large penitent form results are regarded as successful.

The reports referred to, gratifying as they are, represent of course only a small proportion of the Corps within the Territory and there is reason for believing that many of the Corps not represented have enjoyed seasons of blessing like un-to those reported from other centres. and that the visible results have been

equally gratifying.

The contemplation of these glorions facts cannot but warm the hearts of those who love God and souls, and the recognition of manifestation of the power of God in our midst calls for praise and gratitude to Him who holds the hearts of all men in His hand.

Comrades everywhere are keenly alive to the fact that the good times already experienced are but as the droppings of the showers for which we all look, and we are glad to know that there is manifest amongst our people an increasing sense of dependance upon God for increased outpourings of His Holy Spirit.

Gratifying too, is the evidence of

strong and persistent faith that God is nigh at hand and that He waits to be gracious. The wonderful man-ner in which the Power of the Holy Spirit has been manifested in the rousing to a sense of their Spiritual need men and women long indiffer-ent to the claims of God, and the equally wonderful way in which aphave, in many instances, been swept away at a stroke occasions much reicing, and also greatly increases faith that even greater things will

Soldiers Being Enrolled.

One of the most encouraging signs in connection with the saving souls is the increasing desire on part of many converts to become Soldiers of The Salvation Army. This we regard as the best seal which any man or woman can put upon his or her conversion. The desire to take an active place in the nanks or those who fight for God is an indication of a right view being adopted, and is evidence that the new power which has come into the convert's heart is finding expression in his life. his life. NOONDAY PRAYER General MEETINGS

To be Held in Toronto Temple

A series of noon-day prayer Meet-ings are to be held in the Toronto Temple. They will commence on Wednesday March 29th when the Commissioner will be in charge. Colonel Bettridge.

From April 10th to 13th daily prayer Meetings will be held, when special intercession will be made to God for the success of the Self Denial Effort and for His blessing on the Army's world wide work.

All Comrades whose employment is in the down town section of the city are urged to make a special ef-fort to be present at these Meetings, commence at 12.30 p.m. each day and continue until 1 p.m.

We of The Salvation Army believe that one of the best ways of caring for one's own soul is to take an active part in caring for the souls of others. This is no idle claim, it has been borne out by experience upon a thousand battlefields, and is as true to-day as ever it was. How could it be otherwise? Who is there that clearly realizing his own escape from the clutches of the Evil One does not with that realization also become conscious of a desire to see others share in the same happy experience? Not a few instances which have occasioned great joy in our midst have been such as a recently converted man leading his wife to the penitent form, a mother leading her son, or as in one heartthrilling instance a daughter leading both father and mother to the spot where she had herself entered into the wonderful experience of sins for-

The Solindications of the greater victories which are to be achieved. The Soldiers of The Salvation Army have before them a battlefield which knows no boundary. Wherever there is wrong the Salvationist has the privilege of seeking to put it right. And knowing as we do that the wrong in which men indulge is the outcome of an unregenerate heart, it is the bounden duty of one and all who know anything or Christ's power to save to go boldly and yet tactfully to such as by their lives indicate that they have not yet found Salvation, and in going to them making an earnest effort to present clearly and unmistakably the glorious opportunity which God gives them of entering into an en-tirely new experience,

TRECHT will to-day salute the distinguished Leader of The Salvation Army as its guest, and our city will receive this remarkable man with pleasure.

Such was the sentiment of one of the leading daily newspapers. That salute was given right nobly, not only by the Press, but by the public and notabilities of Holland's intellectual and religious centre, says the British "War Cry."

Enthusiastic Welcomes

Upon the arrival of the General, who was accompanied by Lieut.-Commissioner Howard and the Territorial Staff, early on Saturday afternoon, he was instantly plunged into an almost unprecedented series of enthusiastic welcomes. First he of enthusiastic welcomes. Songs of Gratitude

The children sang a song of gratitude 'that God has brought you here.' Glowing with pleasure, the General blessed the Young People, and then turning to the surging throng with a few words of heart-reaching counsel, He implored them reaching counsel. He implored them

and lower, but as a ladder for climbing up to God, Holiness, and Heaven.
Immediately afterwards the Gen-

eral was driven through the smiling crowds to the Governor's official residence at the Castle, in the oldest part of the city. Here he was heart-ily welcomed by Count van Lynden Sandenburg the Governor of Utrecht Province, and his lady. The happy function terminated by the Countess charmingly thanking the General for sparing them a few minutes of his valuable time.

N Saturday, March 4th, Com-missioner and Mrs. Sowton, accompanied by Lieut.-Colonel Adby and Brigadier and Mrs. Barr arrived in Kingston to conduct the week-end Meetings. This being the first visit of our Leaders since their return to Canada there was nature ally much interest aroused and a keen desire on the part of the Corps to make the occasion one of blessing and profit.

Met the Soldiers

The first Meeting was for Soldiers only and it was well attended. Brigadier Barr, the Divisional Commander, suitably introduced and on be-half of the Corps welcomed Com-missioner and Mrs. Sowton to Kingand the Comrades certainly bearty and sincere in their response. It was quite evident that they were glad to have Commissioner and Mrs. Sowton back with them in the capacity of our Territorial

The Commissioner's address gripped the hearts of his hearers and made a deen impression on all. That the Holy Spirit was at work was clearly evident and one was therefore surprised that for a while no one responded to the call to nigher and better service. There was, howon, and soon the break came, and SIX souls sought deliverance and

The afternoon gathering took the form of a welcome Meeting. His Worship Mayor Corbett presided and proved to be a very excellent

Chairman, His remarks on the work of The Salvation Army were such as one could well rejoice in, and evidenced the fact that in Kingston's new Mayor The Salvation Army has a real friend. The addresses of Commissioner and Mrs. Sowton were full of interest and practical value. Drawing on the great treasurehouse of their long and varied ex-periences they gave their audience a vivid picture of Salvation Army activity in different world centres, and contributed much to the knowledge of those who listened to them.

W. F. Nickle M.P.P. in an interesting and racy speech moved a vote of thanks to Commissioner and Mrs. Sowton for their addresses. He referred in a special way to the work done on behalf of the prisoners in this city, and also to the calibre of the men who administered the affairs of The Salvation Army.

A Stirring Speech

Ex-Mayor Shaw seconded the vote of thanks, giving a stirring speech which revealed him as a sincere and active follower of Jesus Christ.

The singing of Lieut. Colonel Adhy was a feature of the Meeting and drew from some of the speakers much favorable comment. Treasurer Graham, on this occasion, represen ted the local Corps and acquitted himself in his usual able fashion.

The Salvation Meeting at night drew a large crowd, and from start to finish it was a season of heartgripping influences.

Our Leaders were at their best and their earnest appeals riveted the attention and deeply stirred the hearts of all present. The interest was intense, and the spirit of conviction was strongly in evidence. It was however a hard fought, uphill prayer Meeting that resulted in the FIFTEEN surrenders at the Cross. J. Barr, Brigadier.

Lieut.-Colonel Rawling

We regret to say that there is no improvement in the condition of the Field Secretary. The course of his illness fluctuates considerably. At times he is easier, and then again his sufferings are very acute. Through it all the good hand of God is upon him, and while doing every-thing to aid the sufferer, the out-come is to be left in the haud of Him who is "too wise to err, too good to be unkind."

Happy is the man who can say with Lieut.-Colonel Rawling "Whether we live, we live unto the Lord, whether we die, we die unto the Lord; whether we live therefore, or die we are the Lord's."

Let there be a continuance of prayer, not only for the sufferer but for Mrs. Rawling and other members of the family.

TORONTO CENTRAL HOLINESS MEETING

Gonducted by Lieut.-Colonel Bettridge in the Temple—Ensign Sowton Welcomed—Cadets Relate Interesting Experiences

An exceptionally good crowd assembled in the Temple last Friday and much blessing and help was received. As the service proceeded, the spirit of yearning for spiritual things, expressed in the prayer of Brigadier McEwan, increased. An interesting event took place in the introduction of Ensign Sowton, who has recently taken up an appoint-ment on the Training College Staff, The Ensign has been heartily re-ceived at the Training College and has already given cyidence of keen interest in her work and wili, no doubt, by the blessing of God, be a means of further inspiration and help to those who will come under her direct influence and instruction.

Converted at five and a half years of age, Cadet Clague told of the guid-ance and revelation of the Holy Spirit in her life, leading her step by step to a higher spiritual experience, and eventually, into the wider sphere of service in which she is now en-

The wonderful providence and care of God for those who honor and obey Him was shown in the story that Cadet Dickinson told of his early life, and how he was, hy this, continually reminded of his

duty to God. Lieut.-Colonel Bettridge gave a stirring address, emphasising the necessity for holiness of life and character, and out and out service for God, ONE seeker came forward.

Personal Pars

The condition of Mrs. Colonel Otway, who it will be remembered had the misfortune to fall and break her

arm, continues to improve.

Ensign and Mrs. Rix (Napanee) are rejoicing over the arrival of a baby girl on Friday Feb. 17.

He was riding his bicycle when a motorist ran into him and he was thrown into a ditch with his left leg frac-tured. He lay there for several hours before he was discovered and taken to the hospital. The callousness of the unknown motorist in leaving his victim to suffer so is deserving of very severe censure. The Lieut., we are glad to hear, is making a good recovery and maintains a cheerful spirit.

"Passing the shop of a taxiderm-ist, the Adjutant noticed a fine stuff-

ed tiger in the window. Turning in-to the shop, she asked to see the lowner, and told him what was in her mind. Could he advise her? He

was interested, very. He had several Indian jungle animals, which he would gladly lend. And he knew people who had fine Indian scener-

ies; he would speak to them and to others who had Indian costumes. "The plan materialized surpris-ingly. She had the village with the

inevitable well; the women, with their water-pots, and the children playing about. The jungle adjoin-

ing was uncanny with wild animals.

There were tea gardens with palms, an exhibition of Indian wares, and

the Soldiers of the Corps moved about as Indian villagers.

"It was a most extraordinary affair. The campaign was well an-

in the eyes of our own people, young and old, but of the outsiders as well."

Staff-Captain Lee had learned the secret of holding her converts. "A ship-owner in Sunderland had

read of the Angel Adjutant in "Brok-

powers nor her platform gifts, and often questioned in his mind where

the secret of her influence upon des-

A Unique Character

"To-day we assemble to bestow the ast sacred rites over the body of a brave soldier of Jesus Christ, and to brave soldier of Jesus Christ, and to pay our respects and appreciation to a valiant Officer of the Salvation Army," he said. "In doing so we fully recognise the great loss the Army has sustained in the death of Colonel John Dean, for the Colonel was one of its striking and unique characters. He made his impress for good upon the people he labored amongst in many lands, and by his great gifts and outstanding talents commanded important positious in the ranks which

so acceptably and creditably filled. "To me that loss will grow in onths. We have been comrades and friends and Officers together for upwards of thirty-seven years. We fought together in 1885 in Australia. We shared the conflict together, for it was not easy fighting in those days.

"From my first contact with this splendid character and great soldier until I visited him a few days before until 1 visited lim a rew days before his death, the appreciation of his sterling qualities, his remarkable faith, his unchanging convictions, his immovable principles, his deep sin-cerity, his uncommon honesty, his cerity, his uncommon honesty, his grasp of religious things and his passion for the souls of men, grew upon me. We were comrades and friends for those thirty-seven years, and you know something of the feel-ings that take hold of me to-day.

Never Wavered

"From the day that he put down his axe on his father's farm, as a eutter of timber in the wild bush of eutter of timber in the wild bush of Australia, and decided to give his life to preaching the gospel, until the day of his death, John Dean never wavered from the conviction that he was called to be a preacher of rightousness, and never lost his pas sion for the Cross or his love for the Salvation of men.

"To-day we mourn over a strong

preacher, a great teacher, a mighty defender of the faith, a good man, a

brave soldier, a sturdy character, an efficient Officer, a devoted husband, a loving father, who has been removed from us by death. We rejoice over a life well spent in noble service for God and the Kingdom. We rejoice God and the Kingdom. We rejoice that John Dean magnified the grace of God so exceptionally in his long and eventful life. We rejoice that and eventful life. We rejoice that John Dean kept the faith, preached the truth, loved souls, lived for a great cause, employed his talents to noblest purposes, that he fought a good fight, was faithful unto death, and finished his course with joy. "When we place his body in its last resting place, that will not be the end of John Dean. We will, however, part for a time with one of the finest types of Salvationists. We will say good-bye for a while to one of the

good-bye for a while to one of the great characters of the Army—one who made an exceptional impress upon his time. His works will live and John Dean will be remembered for valiant service rendered to the Army world long after the sod grows green over his grave.

Stand to the Truth

"I can well understand what John Dean would like to say on such an occasion: He would say to all Officers and Soldiers, 'Stand to the truth, preach the Gospel as the only power to save and let it be made known with clearer notes that the wages of sin is death.' He would say, 'Keep sin is death.' He would say, 'Keep free from the world and worldliness, he loyal to The Salvation Army docand principles, and keep the He would urge us all to reconsecrate ourselves for the Salvaconsecrate ourseives for the Barva-tion of the people and be Salvationists through and through, and would re-mind us that what is done for another world must be done now. He would warn the sinner to flee from the wrath come and lift up the Lamb of God world

pleasantly, 'I would have thought you needed rest after your heavy Sunday.' The Adintant small Sunday.' The Adjutant smiled and hesitated. The gentleman continued, 'May I ask why you are out so early?' She replied, 'Well, last night we had two remarkable cases seeking Salvation, and when ungodly men are broken up and come to the penitent-form, that is only the commencement of the work. I have been down to these men's homes to pray with them and see them safely into the works.' Says this friend: Then I understood the secret of her It was the same love that took Christ to the cross to save sinners working in this woman to the same end. I no longer wondered at her success.'

FACTS ABOUT THE HEATHEN

The heathen population of the world is estimated to be 1,000,000.

Superstition and ignorance inflict torturing miseries upon millions of people in heathen countries. Only the light and life of the Gospel can deliver them.

Native women of South Africa suffer unspeakably, and thousands die for want of skilled midwives. * * * *

The heathen nations are turning to the Christian world and begging for the light and love and consolations of the Gospel.

No. 52-ENLISTMENT

In enlisting in the Army a Soldier is asked to sign what are known as the "Articles of War," which set forth the principal doctrines that every Soldier is supposed to believe the main principles on which he is expected to act, and a brief description of the service he will have to

Every Salvation Soldier must consider and sign these for the following reasons:-

That he may understand before hand the doctrines, principles, and practices to which he will have to conform.

Thinking and praying over these articles will help him to find on whether he really has the faith and spirit of a Salvation Soldier or not.

The pledge involved in signing these Articles will help him to be faithful to the Army in the future,

They prevent many joining who are not one in heart and head with us, and who consequently would be likely afterwards to create dissatisfaction and division. Two cannot walk together comfortably, or fight side by side earnestly, except the are agreed.

HAT'S DOING ROUND THE WOR

Birds Help to Hold Insect Pests in Check and Should be Protected From Harm and Encouraged to Come to Orchards and Gardens

N a frosty morning in the early spring, just after the first brow patches of grass have appeared in the meadows, a joyous, warbling song is heard in the orehard, writes Hoyes Lloyd. The singer is easily -the first glimpse of that blue foundblack, bluer than the bluest of summer skies, tells you his name—the Blue-bird. Then, with a flourish of one or both wings, he settles on a point of vantage and watches the ground below him for insect prey. The sunshine is already warming some of them to life for their eareers of destruction, but the Bluebird pounces again and again from his perch, and many insects are removed which, with their numerous progeny, would serve to lay waste and destroy the crops of field and garden.

The Bluebird is but one of an army of migrants to follow. As spring advances they swarm in our shade-trees and hedges, and seatter over field and forest; even in the air they have their hunting ground; and almost without exception they are working in man's interest by holding in check the insect hordes which, if they held undisputed sway, would render man's agricultural efforts of no avail.

When man clears the forest and plants various plants for food he dis-turbs the complicated series of events known as the balance of na-The insects often find his exotic vegetation more succulent and attractive than their native hosts, and transfer their attention to this new source of food. Certain of the birds have increased because of these new prairies, which were once forests, and which man has made. and many others find the edges of the man-made fields attractive. We must maintain the bird control of the insect pests as best we can under these conditions. This can be done by protecting the birds which have succeeded in adapting themselves in a measure to man; the birds which come into the garden and orchard and meadow, and find it good and stay there. We can encourage them to come by feeding them in winter and by providing suitable nesting-sites so that they will stay with us when we need them most and when they need most insect food; and that is when they are raising their young,

Suitable shrubbery such as a few dense tangles of bushes and erecepers or a shady hedge, will afford them shelter from their enemics, and if their greatest enemy, the eat, is banished or tethered or otherwise disposed of, they will amply repay us for all our trouble. The damage we suffer from insect pests is enormous; without bothering about giddy figures, it suffices to say that insects destroy from five to twenty-five percent of each year's crop of everything man raises. The forest losses, which are even more difficult of computation, must be as great. The birds help to hold these enemies of ours in check: these lovely creatures which we would protect as we do flowers for their beauty, and which we all must admire because of their musical ability and cheering presence, are really working for us from dawn to dark, and even through the hours of darkness. How much we owe them! How earefully

we should guard them from danger!
And then, when you have studied and known the birds that work for and known the birds that work for you at home: when you really know the Robin, and Oriole, and Chiekadee, and Chipping Sparrow and a dozen others, you may be tempted to go and see the ones that protect your woods; the shy, retiring birds that avoid the haunts of man and prefer the cool sileut forest; the Hermit Thrush, the Rose-breasted Grosbeak and the Vcery, and very many more. If you once begin to know the birds, they will have a new friend and protector and the gain will not all be theirs. A new pleasure has been added to your experience, new thrills added to your experience, new thrills may make your outing an event, and there will be a new motive to draw you into God's great out-of-doors.

CONQUERING THE NORTH

The phrase, "The Friendly Arctic," which is the title of Vilhjalmur Stefansson's new book, is in itself a challenge and a defence for the rigors of the North which most people of the world fear and dread. The celebrated Canadian explorer, in an article in "World's Work" presents article in "World's Work" presents the case for a cold climate, and says the world has frequently extended its habitable regions, and notably in the case of Canada itself.
"We are conquering the difficulties of the North faster as time goes on," he writes." It was more than a

thousand years from the time when the Romans thought that no civilization could exist north of the Alps until the civilization north of the until the eivilization norm of the Alps was really on a par with that of Italy. But it was only a century the time when Benjamin from the time when Benjamin Franklin thought that the little island of Guadeloune was worth more than all of Canada until the time when second-rate cities in Canada had become more important than the whole island of Guadeloupe. By analogy we may expect that it will re-quire only a decade or two for the same progress in knowledge and rev-olution in sentiment with regard to the northern prairies that are still called "Barren Grounds" and are still supposed to be worthless."

CEDED TO ITALY

Arrangements practically have been completed for the transferring to Italy from Great Britain of a part of the Province of Jubaland, in East Africa. The eession is being made in conformity with the terms of the treaty of 1915 between Great Britain, France and Italy, which provided that Italy should be compensated in the event of either of the other two parties increasing their holdings of

erritory in Africa.

While virtually nothing remains to be done before the territory is, fermally turned over, it is under-stood the final ceremony will no take place until some time in June formed the Governor of Kenya Con ony, Sir Edward Northey, under whose administration the territory

wnose administration the territory remains until formally transferred. The territory involved adjoins Italian Somaliland. By its transfer the British Kenya Government is expected to save approximately \$250, 000 a year, inasmuch as the present frontier, of nearly 500 miles, follows he windings of the Juba River, and is expensive to administer.

ICELAND AND SPAIN

A enrious situation has arisen in Iceland, which was the first country to prohibit entirely the manufacture, importation, and sale of alcohol.

The prohibition law interferes with Spain's exports to Iceland, and Spain has now given notice that she will refuse to renew her trade agreement with leeland unless the prohibition law is repealed and alcohol allowed.

As the Spanish market for dried fish is very important to Iceland the threat of the Spanish Government to impose double duties is rather serious to the prohibition country and strong influences are being brought to hear upon Spain to refrain from tempting Iceland to repeal a policy so good for the country and so popular with the people

A LESSON IN ENTHUSIASM

When Sir Edward Northey, the Governor of Kenya Colony, East Africa, arrived at Nairobi after a ong visit to Enrope, he found a surprise awaiting him. During his absence The Salvation Army had established itself in the Colony, and on His Excellency emerging from the railway station he was met by a contingent of native Salvationists who, under Major Robert Peat, had marched up with banners flying and drums beating to bid him welcome. Their enthusiasm and delight ex-ecceded that of all the other people and it was all the more pronounced because they had made certain of being the first on the ground. His Execulency was pleased and impres-

WHAT THE CENSUS SHOWS

The new census figures reveal the fact that Nova Seotia, with an area of 21,068 square miles, has a population equal to that of British Columbia, with an area of 353,416 square nia, with an area of 353,446 square miles, or about seventeen times as large. If British Columbia were as thickly peopled as Nova Seotia it would have 8,730,000.

Scanning the growth of the Do-minion in the past fifty years, from the first census after Confederation, population has more than doubled.

By Mrs. Blanche R. Johnston

"Again, a new commandment I write unto you, which thing is true in Him and in you." 1 John 11:8.

Reverting to the subject of our last study (1 John 1:7) we again call attention to the first letter of St. John the Divine. We ask you to read the contents of verse eight of the second chapter. It will be evident that some very high privilege in Christ Jesus is referred to by this writer. "True in Him and in you."

The context and preceding verses make clear the thought that the Apostle was referring to the love of Christ. John was presumably the Apostle of love. He is called by one writer "the greatest teacher of love." He leaned on the Master's breast, and learned all he knew of love from the living touch of His heart." So this great characteristic John

points out is His love. But he shows something else. He says "And in What does he mean? Can it be that he would show us that the love that possessed the Lord of Glory can he in those to whom he was writing? That is clearly stated. The same love in essence, Moreover he points out that the one who says he has the love of God and hates his brother is in darkness (verse 9)-

that is, in a sinful state.

This love of Christ is quite different to any earthly love. If space permitted we would like to point out some of the signs of its presence. We can only say it is like a spring of water ever flowing, ever refresh-ing. It means not only compassion for the attractive ones, but it loves the unlovely. It is not spasmodic. It is an ever glowing force. How is possible for that Divine power to dwell in human form? There is only one way. It is a fruit, a consequence, a rath. Only as His life lives in the human can His love radiate from that human. It is not a nice disposition or a charming personality It is Christ Himself, own life transfused into the life of the believer. It is a new life, a new person, manifesting His life through the demonstration of the Holy Spirit.

There must be the birth into brist. The new Adam coming in and living His life in the Christian. The verse is like a gold mine of rich treasures and the more it is delved into, under the illumination of the Holy Spirit the greater will be the conception of its true inner meaning, and the clearer will be the un-derstanding of the new commandment which is here set forth. personal appropriation of this truth will revolutionize the whole Christian experience. May we turn the scarchlight of His Truth upon our individual hearts and see if that which is "in Him" is also in us/ Have we the life which fills and Are we by faith living His love out in our every day lives?

PERSONAL SKETCH

No XX-Brigadier Tudge

When young Thomas Tudge away from home and resolved into return he did not know me about The Salvation Army, Infi he knew nothing about it, his pa ents being Anglicans. While you Tudge attended Church and Sabba School it was because he was con pelled to do so.

Nor did he think he would en

be a Salvation Army Officer whe he took to a life in His Majestr Navy. However, after years of st vice, and having risen to the rank Petty Officer, he left the Navy an joined the Army—The Salvation Army—having previously prove God's power to save and His man to keep. He was converted in Babadoes. He was accepted for Oncership in Canada from HMS 'Cordelia.'

Many and interesting are the stor. ies Brigadier Tudge can tell of his life in the Navy. During the Amenian outrages he was with a unit the Grand Fleet which for a considerable time lay in the Bosphon with deeks cleared ready for action Later with the Flying Squadron by visited the West Indies and Rem It was here he met the Arm and was drawn to it hy the faithful dealing of the Officers stationed

there at the time.

He truly felt the call of God in service in The Salvation Army an Officer, but being rath in disposition he resolved to try out for twelve months, and he was sent to an appointment in Cape Bre ton when the fight was by no mean In fact it was very diffic and very different from life in the Navy. He had been accustomed to hardship, but this was sacrifice. He relates that while collecting for the Self Denial effort, he with his Captain were lost in the wilds in the Poss Park Take District. For two Bras D'Or Lake District. For two days they wandered about and at last located people who could direct them properly. This, and other experiences were entirely new to him but with dogged determination h "stuck it," and as a result when the year of trial was ended he decided to continue.

Other appointments followed and then he was sent to St. John Provincial Headquarters. By this time he was promoted Captain. the Immigration Department was formed he was one of the first appointed to it.

The time came when Captain

Tudge took unto himself a wife, He chose as a partner Ensign Violet Lemon, and a good partner she has proven. Soon after their wedding Ensign and Mrs. Tudge were appointeed to take charge of the im migration work in Western Canada

They had the pleasure of seeing this hranch grow very rapidly.

When the Territory of Canada West was formed, Staff-Captan Tudge was made Western Secretary. Promoted to the rank of Major in 1918 he was chosen to tour New Zealand and Australia, to investigate Immigration possibilities in these Dominions. The investigation of cupied a whole year.

Then came his appointment as Resident Secretary for the Immigration Department with Headquarters at

IMMIGRATION NOTES

Dear Mr. Editor:-

Brigadier Tudge sed to me when he read my last letter that he wanted me to tell you somethin' about the Conducted parties. He told me he had just heard from Commissioner Lamb that he is sendin' eleven Conducted parties between February 24th and April 11th. There would be domestic servants and farm hands with each of them and then he said there would be one of them a Through Rate party to Win-Now all this means work and although I have seen parties the way I asked the Brigadier if he would fix it up so as I could go with that Through Rate party to Winnipeg, so I am hopin' nothin' will happen so I can't go. Then I will tell you about it as soon as I can. Now these Conducted parties are

wonderful things. Commissioner Lamb makes arrangements with one of the big steamship companies to get a portion of the ship accommo-dation turned over to the Army. The dates of sailin' are advertised and then when they have enough people for the party they appoint some one to be the Conductor. Sometimes its a woman. Whoever it is they travel on the steamer with the party and give them any advice they can. They hold Meetin's with the passengers and arrange concerts on week days. They have some

If there is any young woman comin' to Canada for the first time the Conductor takes a special interest in There is so many things for them to learn and of course there is always so many people to give advice. Poor girls! if they took all the advice given them they would have an awful time.

he Conductor also tries to help everybody to do the right thing while on the ship. They sometimes have trouble with their baggage. They think they shouldn't have to pay for some of it. The Conductor has to see that there is no mistake and so makes everybody happy. This in only one of the many things they have to do.

Then when the steamer gets to the Port - Halifax. St. John or Quehec— the Conductor goes with the passen-gers through all the different examinations and helps to straighten out the kinks and help everybody up, I tell you its no picknick.

The Conductor I saw was just as busy a man as ever you could find, and so is everyone while a Conducted party is passing through. There are tickets to look after, haggage to check, and did you say questions to answer? Well you can just bet there is. A fellow has to be like a walking dictionary. And patience!
Oh well, its just like them Salvation people anyway, so 'nuff sed.

The Value of Personal Dealing.—Ensign Sowton Farewells from Edmonton II-Mrs. Captain Burr Promoted to Glorv

FROM THE CANADA WEST "WAR CRY"

HILST joining with the Comrades at a Vancouver Open-Air Meeting, Mrs. Brigadier Coombs felt led to speak to a man standing on an adjacent sidewalk. The man spoken to apparently had no immediate interest but during the conversation referred to a daughter who lay sick in hospi-Mrs. Coombs enquired concerning the circumstances and asked if a visit to the daugnter might be a visit to the daugnter might be cacceptable. The reply from the father was decidedly in disfavor. "She might be pleased to see you but more likely not; and if religion is broached, might possibly insult you,"

said he.

Mrs. Coombs bade the man good-bye and some days after the incident on the street visited the Hospital in quest of the sick one. The girl-for she was little more-was found after some search and tactfully approached. Becoming communicative she opened her heart to her visitor and expressed a desire to be sayed. Her life had been a very worldly one, and although married, the charm of this world's pleasures had worn threadbare. A wasting disease had brought her almost to Eternity's portals. Such a one, Mrs. Coombs had the unspeakable joy of leading to Jesus.

This, however, was not all. The Sunday after, when Mrs. Coombs journeyed forth to see the new conert, she found the husband by the sick bed. The sick woman, now glowing with the joy of her new found faith, told of the Saviour's coming. Soon the husband was kneeling at the bedside pouring out his heart to God, asking that his wife's joy might be his also. Is it any wonder that the visitor's heart too full for words as she descended the Hospital steps. Who can measure the results that come from a few moments of personal dealing.

The Comrades of Edmonton II are very sorry indeed, that after a short stay of seven months, we have had to bid farewell to Ensign Anna Sowton. She has worked and toiled faithfully in our midst and won a lasting place of affection in our hearts. During her stay a number of souls have been converted several Soldiers made, and the Young People's work has increased wonderfully At the Ensign's farewell Meeting a large congregation gathered to bid

During the week the sad intelli-gence reached Territorial Headquarters of the passing of Mrs. Captain Burr-one of the Territory's brightest representatives on the Missionary Field. With her husband, Mrs. Captain Burr was transferred to the Indian Field in 1920, and thus was accepted a 'sacrifice' made by our much loved Comrade in early girlhood.

Up to the time of going to press only the briefest details are to hand concerning the translation of this bright spirit, but that our sister died as she lived—conscious of the pres-ence and favor of the Heavenly Father-may be taken for granted.

Mrs Burr spent some time as an Officer in both Toronto and Vancouver. In the year 1916 she was wedded to Envoy Thomas Burr, Staff-Captain J. BOUT this time there came into Auna's life a new influence in the form of religion. Since childhood e had turned a deaf ear to things of e soul, and the experience of the war e soul, and the experience of the war d embittered her toward the church d its teachings. The Bible was to r a book of legend—pretty reading, thing more. She felt sorry for ose who were attracted by its fables. Each day the mother of the little mily would ather her brood for a sayer meeting. There would be a sage from the Bible and a prayer om the girls. It as all a fairy story to her, and she id not have time or inclination to sar fairy stories. ear fairy stories.

A New Organization

Then one day came a new leader.

e was a forerunner of a new regious organization. "The Armada pasy" it called itself. Literally anslated, the words mean the "Army toucher. Who were these newest families, these men who wore military niform and preached about the rince of Peace? Really, was it not unshable, that hey should try in the ame breath to preach Caristianity and War. So ran the mind of Anna evectova.

Some one explained to her that they were evangelists. Yes, Anna knew the evangelists. They were people the came to the village to hold meetings in churches and in public places or the purpose of getting other peote to join the church. She had heard am. Even they had accosted her on

people who took delight in attending to the business of other people.

to the business of other people.

However, in the course of time the Armada Spasy came to the little village near Prague, where Anna lived. It was not much of a "coming," she thought, just an old man and two girls. The uniforms were pretty, truly, but her practised eye caught many of their bad points. Anna felt that she could improve them with a needle and a pair of scissors.

The Salvationists stayed in the village.

lage several days. Their meetings were well attended, and during their stay the Salvationists visited the Seveekova home. The mother invited them to dine, and at the meal Anna was surprised at their happiness and galety. Most of the evangelists that she had encountered were of the soher and lange-faced weight. The civils and lange-faced weight.

she had encountered were of the sober and long-faced variety. The girls laughed and joked with her and they were good singers and also played the stringed instruments which they carried, well. She waited vainly for the question that she felt was to come, "How is it with your soul?"

All during the visit they did not note ask her about it. She was invited to the prayer meeting as a matter of course, and was accepted on the basis of equality that delighted the girl. After the meal the issue Captains prayed and donned their wraps, saying that they would have to be about the business of the afternoon.

"And what is that?" asked Anna.
"O, don't you know, then? Why,
we sell the 'Prapor Spasy,' you know.

It is the paper that is published by the Army all over the world. The English word is 'War Cry,' and it car-ries not only the news of the Salva-tion Army but also the message of Salvation. We sell it every day wherever we happen to be,"

"It must be great fun," said Anna. "Do you go into all the stores and inomes?"

"Bo you go into all the stores are inomes?" "Surely," they answered, "and it is more fun than even you suppose. People are very kind to us usually. Only now and then will we run aerossomeone who is unkind, and then we try to bring them around to a better frame of mind by kindness on our part. It is great fun to be kind; to other people, particularly when they don't want to be kind to us."

con't want to be kind to us."

"Do you suppose I would be allowed to go along with you?" asked Anna.

"Surely," they replied. Anna's mother, waiting prayerfully behind the curtain, breathed her thankfulness that the door had at last been opened. Anna sold the 'Prapor Spasy,' and with each sule her heast grow warner.

Ama sold the 'Prapor Spasy,' and with each sale her heart grew warmer toward the new found friends and their religion. She determined to go with them to the neeting that night and to listen with an open mind to their argument.

The meeting was a lively one, all Salvation Army meetings are lively, and during its progress Ama became more and more convicted of her condition. At the end and when the aged leader invited those who desired Salvation to come forward and kneel at the penitent-form, Anna was surprised to see her mother accept the invitation.

"If another goes up, I will be the

another did not go, and the meeting
came to a close with the soul of the

The Salvationists left the village and went about the business of the Master elsewhere.

Not long after their going the factory in which Anna labored dismissed a number of the girls, because of slack times, and she was among the number. Unwilling to be a drone, the girl made arrangements to go to Prague, where work was plentiful. She was a good housekeeper and soon had an excellent position in the home of a family of wealth.

On her free afternoons and evenings Anna went to the Armada Spasy. She found them without much hunting, for everyone in Prague knew of the organization. At one of these meetings she went forward in testimony of her acceptance of Christ, and at a

Important Announcement

SPECIAL EASTER NUMBER

-:OF:-

THE "WAR CRY"

HE rapid approach of Easter naturally associates the thoughts of many of our readers with the Special Issue of the "War Cry" which, in accordance with established custom, will be published at Easter, it being dated April 15th.

This being so we are glad to give some particulars as to the con-tents of the Special Number which is now well under way, and will. we believe, be received with considerable satisfaction wherever it goes.

A number of attractive features are included, and of the twentyfour pages, eight of which are printed on coated paper, a considerable portion has been devoted to illustrations. An important feature of the Number is a very fine reproduction of a rare old classic drawing depicting the Crucifixion. It is admirably executed, and surrounded by a pictorial border constitutes a fine Frontispiece.

Page two of the cover shows life-like portraits of Commissioner and Mrs. Sowton. The Commissioner has written a special article for this number entitled "Rolling away Stones," which, while dealing with the Biblical story, has an up-to-date application which makes it immensely acceptable at the present time.

A most appropriate article by the General entitled "An Easter Question" will be read with the greatest interest, as well as serve excellent purpose with those who are willing to be influenced by its teaching. The message is accompanied by a fine photograph of the General.

A life-like photograph of Mrs. Booth appears, with some mention

of her beautiful character in the words of the General.

An article entitled "A Call from Jerusalem" written by the Army Founder when he was in the Holy City just before Easter of 1905, is reproduced in this Number because of the intense interest which attaches to it, as well as to its solid worth.

"Winter is Past" by Commissioner Higgins, the Chief of the Staff,

is one of the most characteristic articles which he has contributed to

"Where our Saviour lived and died" is a beautifully instructive story of the place where were enacted the scenes with which we are all familiar, but which receive new interest with this added knowledge.

Of the Illustrations the premier place is taken by a superb two-page drawing depicting the scene at Golgotha just before the Saviour was nailed to the Cross. It is a surprisingly realistic presentment of a great historical episode which we have no doubt will be considered well worthy of a place upon the walls of many homes in Canada East.

The story of "Golgotha" and its significance is aptly told in a page article by Brigadier Southall.

Six other full pages are devoted to the reproduction of scenes associated with the Army's Work in different parts of the world; some close at home, others far afield, but all full of interest and charm, especially in the light of that other and greater series of pictures of

Army activities which they represent.

A full page is devoted to a picture of the Saviour stilling the

Four telling scenes in the life of Jesus are also shown.

Something of the work done by our Women's Social Department is told in an illustrated article entitled "Mothers," and the operations of the Men's Social Work is dealt with in a paper by Colonel Otway.

A fine photograph of the Cadets now in the Training College at

Toronto, is reproduced in this Special Issue, together with photos of some of the "War Cry" Heralds who by their diligence and devotion have established records in the disposal of Special Numbers of this

A graphic sketch of a number of workless men on a cold day in Toronto tells its own tale.

Other features are included, but the foregoing will give something of an idea as to what our Special Easter Number includes, and will, we hope, lead to its receiving the wide-spread circulation which has been in contemplation during its preparation.
